

Nash's Numbers

by Alan Nash (A95)

You get double this month, firstly -

Eurostar. Issue 15 of the Timetable, valid until 23/5/98 is very similar to my last issue, so from now and in the future I will only issue the whole time table if there is either a major change or I have nothing better to publish, so this months Eurostar update from the January Call Sign -

Train 9007 - Arrival Time 09:09 - does not now run on a Sunday.

Train 9063 - Arrival Time 23:16 - now runs on Saturday as well as Friday & Sunday

Train. 9095 - Arrival Time 16:43 - no longer runs (Ski-train, winter only).

Fares Increase. Now something closer to your heart, as you are all now aware, fares increased on 25th April 1998. It equates to an increase of approx. 4.5% on distance and 5.7% on waiting time. Below is a table of fares against mileage. I have also included the fares for last year so that you can equate a new fare from either your diary lists or last August and December issues of Nash's Numbers, e.g. December issue City to Cheshunt = £29, look up last years £29 and the new fare is £30.40p.
