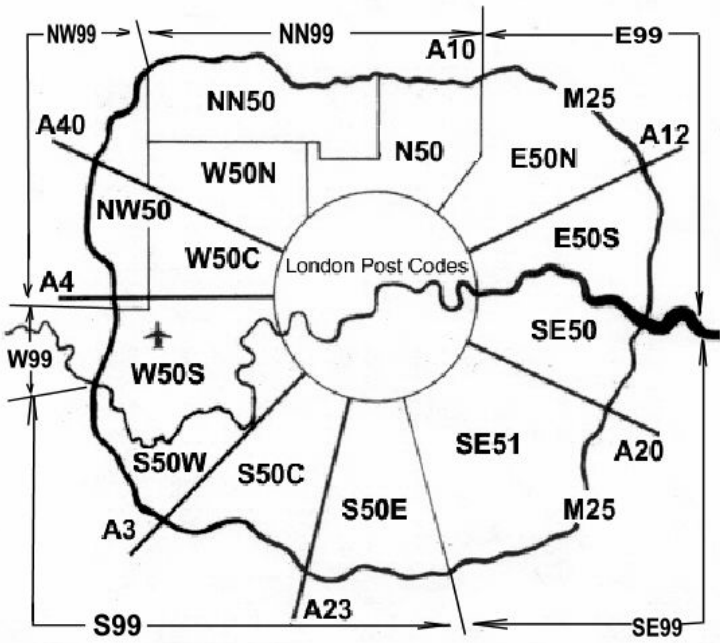
Nash's Numbers by Alan Nash (A095)

First let me wish you all a Merry Christmas and a very prosperous December. By popular request to the editor, this month is the lists of physical ranks, zones and attributes plus a slightly revamped map of the physical zones.

Physical Ranks. Please note that you must be on the rank facing the right way and moving to point, with your "For Hire" sign illuminated (Except EC5 and marshal controlled ranks). Note that zone queries are some 30 seconds or more in delay of reality, if you book in incorrectly and reported by another driver who is on point, it is more than likely you will go on complaint. Key to below - * Calls to ES1 and WS1 are marshalled and information will be given as to the exact position of the rank prior to a call with fleet messages. - ** To book into WW00 you must be inside the Heathrow perimeter road.

PHYSICAL RANK	MAIN ZONE	PHYSICAL RANK	MAIN ZONE
EC5 Finsbury Square		E14C Cabot Square	E14
EC7 Fenchurch St. Stn	EC3	ES1 Euston Station *	NW1E
EC9 Holborn Viaduct	EC1	W101 Stratton St W1 (Mayfair Hotel rank)	W1SW
EC10 St. Brides Street	EC4	WW00 Heathrow **	
EC11 Appold Street	EC2	WS1 Waterloo Station *	SE1W

Physical Zones. Note well that you must be physically in the zone to book in. Often when a job is despatched to these outer zones, the control will check via GPS whether you are booked in correctly, failure to comply will mean you are more than likely



N.B. The map is a rough guide, the text descriptions are the actual boundaries.
