

Nashs Numbers

by Alan Nash (A095)

The Eurostar train now travels via the new 46 miles of high speed track in 20 minutes less than it used to take. Therefore there is a new timetable, however it is only valid until 13/12/2003, and further details have yet been published, nor have details of the Disneyland or Avignon trains. I have been unable to contact Eurostar to query train number 9125 Mon-Sat 12:22 and 12:28, I think these are the same train, my guess is the 12:22 does not exist, but your guess is as good as mine.

MONDAY-THURSDAY
