

Nash's Numbers

by Alan Nash (A095)

First let me apologise for not listing the defence exhibition on last months "ExCel what's on", the reason was that ExCel omitted it from their web site, pointless really, because all the protesters knew about it. This month was to be a full list of all car pounds and their telephone numbers, however, whilst all car pounds have a number, to locate a vehicle that has been removed, for whatever reason by the authorities within the M25 there is just one number that is needed, that of "TRACE"

020 7747 4747

they can identify where any vehicle has been removed to.

There are 33 boroughs and only some put their car pound address on their web site, and ringing each borough is a nightmare of "press 1 for refuse collection, 2 for housing benefit," etc, then put in a queue of mind numbing "your call is important to us", well if it was, they would answer the bl***y thing. So I have just listed the addresses of the important inner London Borough car pounds. Most bewildered customers who have lost their vehicle should have been told the address, but they know us London cabbies know everything so ...

Borough	Car Pound Address
City of London	Warton Road, E15
Camden	Regis Road, NW5
Hackney	Bidder Street. E16
Hammersmith & Fulham	Pensbury Place, SW8
Islington	83-105, Clifton Street EC2
Kensington & Chelsea	Lots Road, SW10
Lambeth	Warner Road, SE5
Southwark	Mandela Way, SE1, by Tesco's
Tower Hamlets	Bidder Street. E16
Wandsworth	Pensbury Place, SW8
City of Westminster	Park Lane, W1. (slip road to underground car park, north bound)

Whats on at ExCel for October 2002

Event Title	Event Type	Date
