

Nash's Numbers

by Alan Nash (A095)

Car pounds update, last issued Oct '03 and there are many changes. To locate a vehicle that has been removed, for whatever reason by the authorities within the M25 there is just one number that is needed, that of "TRACE" **020 7747 4747** they can identify where any vehicle has been removed to. Most bewildered customers who have lost their vehicle should have been told the address, but they know us London cabbies know everything so ...

Exiting from the O2 Venue. Rather than draw a map, it is quite easy to explain. As you probably all know how to set down at the O2 and where the rank is. For those that don't it's the very last roundabout at the northerly end of Millennium Way. You then turn right into the taxi area. The easy way out and into the Blackwall tunnel north bound from an event is when you leave the rank, at the roundabout instead of turning left into Millennium Way, go straight over, the road looks more like a building site than a proper road, but carry on and take the left turn. This leads to a little one way where you bear right and around to the mouth of the Blackwall tunnel. It is worth bearing in mind when coming in on the A2 and when the traffic is snarled up back to Greenwich, it's a good idea to come off the A2, go up to the O2 and at the last roundabout turn left and follow the route as above. Works a treat, I know I've done it.

"What's On" Sept 09. Some notable events on this month (my choice) but for a full list of 136 events. www.nashsnumbers.co.uk and click on "What's On", now how simple is that ?
